## Short Description

“todoist Extension for Zoho Mail” facilitates Zoho Mail users to manage and view todoist project management tool from inside Zoho Mail . The extension uses direct apis to authenticate and retrieve data from todoist. Hence making the extension safe & secure with no storage of data in any middleware database. New projects can be created directly from Zoho Mail without logging into todoist account. This saves a lot of time and effort while keeping the project team on track with their daily tasks.
